

The Fly Family Activity Packet

Meet The Fly Family!

The Fly family is a children's literature series created by Meagan F. Clements. The books feature a family of anthropomorphic house flies — that means they have humanlike characteristics — who learn lessons about self-love, the healing power of rock and roll music, and the importance of chasing your dreams, igniting a passion for all of life's adventures and everything you do!

House flies are insects! Did you know that the average speed of a house fly is 4.5 miles per hour? Before I get into any more riveting facts — riveting means exciting — let me introduce you to the family members. First, there's Frederick Fly, the dad. Frederick is a competitive gymnast who earns a living for his family by competing all over the United States in fitness championships. He wins lots of medals!

Next, there's Fiona Fly, the mom. Fiona is sweet and kind as most moms are. She loves to cook delicious meals and tasty desserts in the kitchen for her wonderful family. Secretly, she would love for her darling daughter to meet a nice boy fly and preferably, not a radical musician. Radical means edgy and cool.

Then, there's the twins, Fonzy and Fillmore Fly. Fonzy wears a shirt with the number 16 on it and is an aspiring theatre actor. That means he loves to act in school plays and plans to be a famous actor one day. On the other hand, Fillmore Fly loves anything country western, especially country western superstar, Billy Ray Flyrus! Fillmore, who wears a

shirt with the number 5 on it, wants to be a cowboy when he grows up.

Finally, meet Franny Fly, a rock and roll loving princess! Franny is a sassy fly who loves reading music magazines and especially LOVES The Fussy Finches, a blues/rock band. The Fly family lives in beautiful, scenic Southern California in a town called Palm Springs. Palm Springs is a desert town that is mostly hot and sunny. Palm Springs has lots of cactus plants and marigold flowers that bloom in the great weather!

Although the flies love their hometown, they were excited to take a trip over Fourth of July to Lake Fishimento!

The Fly family lives next door to the Feldmans. The Feldman family is human! There's Finny Feldman, an 8-year-old boy who is best friends with Fonzy and Fillmore. There's Mr. and Mrs. Feldman — Mrs. Feldman always bakes delicious cherry pies that Frederick loves to share with his best friend Felix who lives in the neighborhood — and Frances the Foodle, a toy fox terrier mixed with a poodle. Everyone loves Frances! Did you know that a dog's average body temperature is 101 degrees Fahrenheit?! Now, that's awesome!

1. What type of fly is each character from the Fly family book series?

- A. House fly
- B. Fruit fly
- C. Blow fly

2. What is the average speed of a house fly?

- A. 4.5 miles per hour
- B. 45 miles per hour
- C. 8 miles per hour

3. What breed of dog is Frances, who lives next door to the Fly family?

- A. German Shepard
- B. Shetland sheepdog
- C. Foodle

4. What is the average body temperature of a dog?

- A. 98.6 degrees Fahrenheit
- B. 101 degrees Fahrenheit
- C. 72 degrees Fahrenheit

5. What is Fonzy Fly's number?

- A. 25
- B. 16
- C. 8

6. What is Fillmore Fly's number?

- A. 5
- B. 19
- C. 2

7. What signature item is on the front of Franny Fly's dress?

- A. Star 🌟
- B. Sunglasses
- C. Guitar 🎸

Answer: _____

37. Can you unscramble the word ILMOFLE?

Answer: _____

38. Can you unscramble the word YFRNNA?

Answer: _____

39. Can you unscramble the word GIURAT?

Answer: _____

40. Can you unscramble the word UCSMIINA?

Answer: _____

41. Can you unscramble the word HERCYR PEI?

Answer: _____

42. Can you unscramble the word OOLED?

Answer: _____

Palm Springs, flies, Fillmore, Franny, guitar, foodle, cherry pie, musician

Did YOU know? FUN FLY FACTS

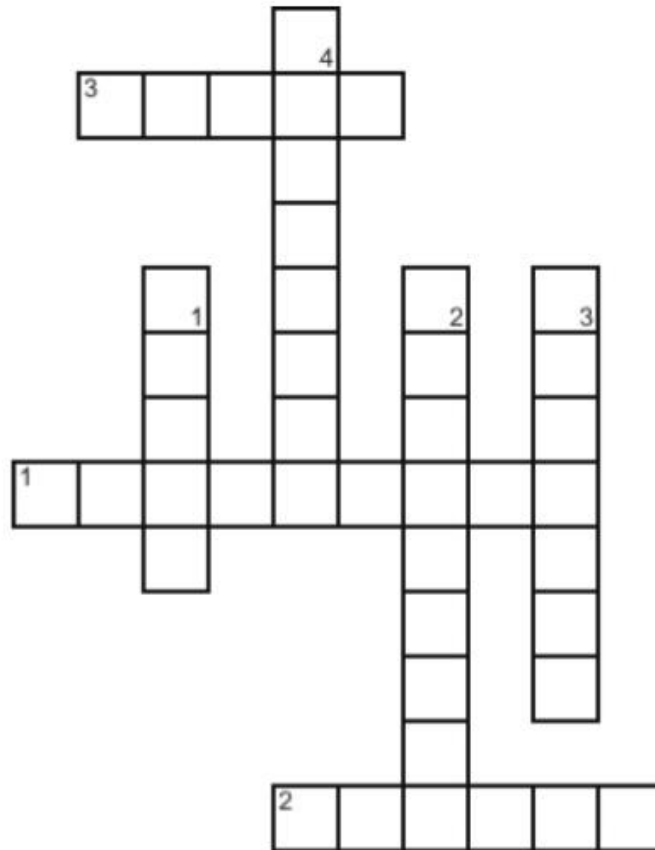

- House flies actually live on a liquid-only diet
- Flies can taste with their feet
- House flies poop...a LOT!
- House flies can walk upside down
- Flies can see behind them
- On average, the lifespan of a house fly is 30 days
- Your brain can process about 60 images in a second whereas a house fly can process as many as 250 images in a second!
- Flies often lay their eggs on poop and rotting food
- Male house flies are constantly looking for a date
- House flies regurgitate (throw up) digestive juices onto solid foods and these juices help break the food into smaller pieces
